For Immediate Release

Subject: Mid-Cape Home Centers and the Cape Cod YMCA prepare for “Build Week 2011”

South Dennis, MA – Mid-Cape Home Centers and the Cape Cod YMCA is currently preparing for its annual community service event, “Build Week 2011,” taking place from May 9-16 at Camp Lyndon in Sandwich, MA. This event is planned each year to aid the YMCA in preparing its facilities for the busy summer season. This year, Mid-Cape Home Centers, along with many volunteer contractors, will be building 5 new summer cabins at Camp Lyndon. This will bring in a great revenue stream for the YMCA as well as offer more facilities within the campgrounds.

Mid-Cape Home Centers calls on its many loyal contractors and assistants to help prepare for this aggressive project. Mid-Cape Home Centers and the YMCA of Cape Cod also has asked for the assistance of students from Lower Cape Tech to help in building all of the decks that will be on the cabins. The students can use the opportunity for hands-on experience at an extremely fast pace.

“Mid Cape Home Centers truly understands the Y mission and we are a proud partner with them on Build Week. We are joined together by our shared passion: to strengthen the foundations of community. Mid Cape Home Centers leadership helps the Y foster a sense of social responsibility in our community by creating this annual opportunity to give back and provide support to our neighbors. This project is an amazing example of youth development in action as Cape Tech students work alongside mentors from the building community nurturing their potential as future community leaders.” States Stacie Peugh, President/Chief Executive Officer at the YMCA Cape Cod.

Occupying 79 acres of pine woods with a freshwater lake front, Camp Lyndon offers a unique setting for a variety of traditional summer day camp activities and serves thousands of children and families on Cape Cod.
